How to Delete Facebook Page Comments

This works either logged in as your Facebook Page or Personal Profile.

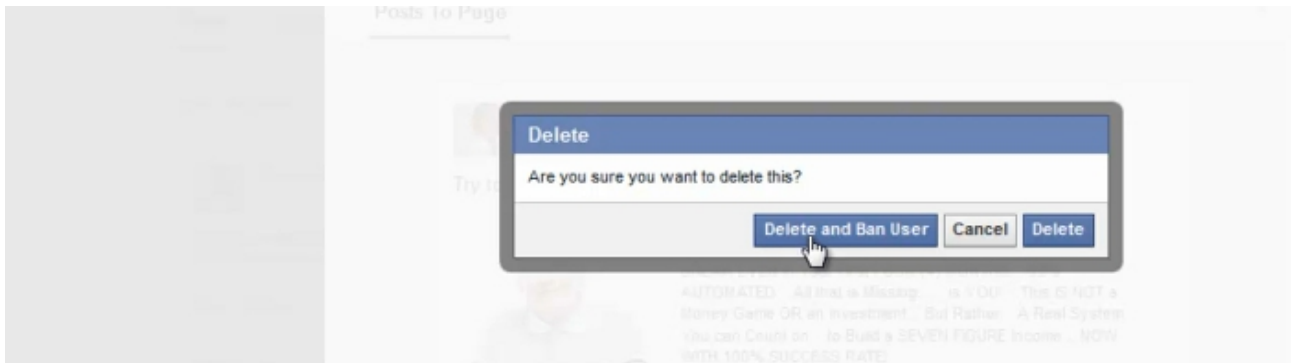

1. Open your Facebook Page and scroll down to the "Posts to Page" on the left side of your Timeline. Click arrow pointing right to open comments on your Page

2. When the comments box pops up, click the dropdown arrow at the top right of the comment you want to delete. Select Delete from Page.

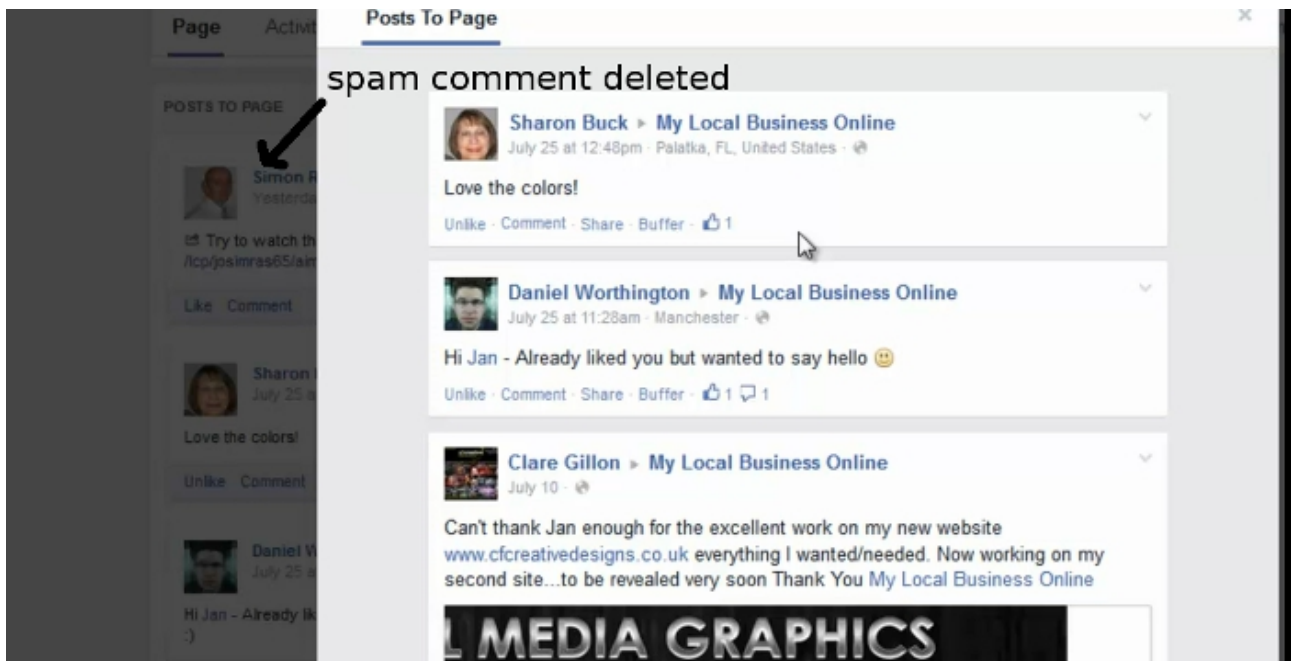

3. A new box pops up with the option to delete the comment and ban the user from your Facebook Page or just delete the comment. Choose the one that suits you best.

That's it your done!

The spam comment has gone from the comment pop up box. Close the light box. Your Facebook Page will refresh and the spam comment will be zapped into oblivion where it belongs!

About Jan Kearney

I believe that every business, no matter how small or how local can use the power of the web to gain more customers. I offer no bull coaching and mentoring so small business owners can strategically put the web to work for their business. I've been called a "compass" and a "navigator" and probably a few more names that aren't suitable for a profile!

Connect with me on [Google+](#), [Facebook](#), [Pinterest](#) or follow along at the [My Local Business Online](#) blog.
